Executive Summary

There are several uncategorized transactions that are pending classification to properly reflect in the accounting records for the Organization. Once coding is received, the transactions will be properly recorded in the period that the transaction was incurred according to generally accepted accounting principles and will be included in future monthly reports.

Statement of Financial Position

This statement is often referred to as the *Balance Sheet*, and it is designed to represent an organization's total assets available to meet its obligations (liabilities) as of a specific point in time. The difference between total assets and total liabilities is referred to as *Net Assets*, or *Equity*.

- During the month of July 2026, cash decreased by (\$240,638), leaving an ending cash balance of \$2,237,443.
- The decrease in cash is primarily caused by EU tax liability payments and final payments to vendors and contractors for services incurred at the Global AppSec EU 2026 conference.
- As of July 2026, the Organization has 5.3 months of cash on hand.
- Accounts receivable is \$871,649 as of July 2026. The balance primarily consists of receivables that are over 90 days old, totaling \$446,925.
- Other current assets are a total of \$618,532 and are made up of 3 CD accounts at Chase and funds due from Eventbrite, PayPal, and Stripe.
- Accounts payable is \$623,066 as of July 2026 and is primarily made up of monies owed for conference venues, VAT Taxes, reimbursements and vendors subsequently paid in the following month.
- Other current liabilities balance is \$37,046 as of July 2026. This balance is primarily composed of VAT tax liabilities owed to the EU entities. This decrease from last month is due to multiple EU tax liability payments.

Statement of Activities

This statement is often referred to as the *Income Statement* or *Profit and Loss*, and it is designed to represent an organization's accrual-basis revenue and expenses over the course of a specified period. The difference between total revenue and total expenses is referred to as *Net Income*, or *Earnings*.

- Total operating revenue for the month of July 2026 is \$419,579, compared with \$597,053 in June 2026. The variance is primarily driven by less conference income this month.
- Year-to-date operating revenue is \$3,774,802, compared with the year-to-date budget of \$2,907,024 and annual budget of \$4,824,238. During the same period in the prior year, year-to-date operating revenue was \$2,954,697.
- Sponsorship and training revenue is performing above year-to-date expectations, with registrations and project donations also contributing strong performance.
- The favorable variance in operating revenue is primarily due to receiving conference income earlier than expected.
- Total operating expenses for the month of July 2026 are \$534,849, compared with \$967,494 in June 2026. The variance in operating expenses is primarily driven by a decrease in conference expenses due to the Global AppSec EU 2026 event held last month.
- Year-to-date operating expenses are \$2,986,695, compared with the year-to-date budget of \$2,822,225 and annual budget of \$5,084,073. During the same period in the prior year, year-to-date operating expenses were \$2,553,113.
- The unfavorable variance is due to the recording of EU tax compliance expenses, which were not budgeted for 2026.
- After accounting for non-operating activity, the Organization recognized a net loss of (\$116,132) for the month of July 2026 and year-to-date net income of \$788,191.
