Executive Summary

Statement of Financial Position

This statement is often referred to as the *Balance Sheet*, and it is designed to represent an organization's total assets available to meet its obligations (liabilities) as of a specific point in time. The difference between total assets and total liabilities is referred to as *Net Assets*, or *Equity*.

- During the month of September 2026, cash increased by $71,489, leaving an ending cash balance of $1,954,306.
- The increase in cash is primarily due to net income for the month, partially offset by paying down accounts payable.
- As of September 2026, the Organization has 4.6 months of cash on hand.
- Accounts receivable is $713,039 as of September 2026. The balance primarily consists of receivables that are over 90 days old, totaling $366,441.
- Other current assets are a total of $666,649 and are made up of 3 CD accounts at Chase and funds due from Eventbrite, PayPal, and Stripe.
- Accounts payable is $146,443 as of September 2026 and is primarily made up of monies owed for conference venues, VAT taxes, reimbursements, and vendors subsequently paid in the following month.
- Other current liabilities balance is $45,191 as of September 2026. This balance is primarily composed of VAT tax liabilities owed to the EU entities. The increase is due to additional tax accrued for the period.

Statement of Activities

This statement is often referred to as the *Income Statement* or *Profit and Loss*, and it is designed to represent an organization's accrual-basis revenue and expenses over the course of a specified period. The difference between total revenue and total expenses is referred to as *Net Income*, or *Earnings*.

- Total operating revenue for the month of September 2026 is $501,247, compared with $446,605 in August 2026. The increase is primarily driven by higher donation revenue received this month, particularly corporate sponsors and chapter revenue.
- Year-to-date operating revenue is $4,618,879, compared with the year-to-date budget of $3,862,995 and annual budget of $4,824,238. During the same period in the prior year, year-to-date operating revenue was $3,583,454.
- Sponsorship and training revenue is performing above year-to-date expectations, while corporate support and project donations are tracking significantly below both year-to-date and annual budget expectations.
- The favorable variance in operating revenue is primarily due to sponsorship and training revenue exceeding the year-to-date budget, partially offset by donations coming in below budget.
- Total operating expenses for the month of September 2026 are $387,289, compared with $255,276 in August 2026. The variance in operating expenses is primarily driven by an increase in conference expenses, mainly for AppSec German Day 2026 and AppSec Days Portugal 2026, and an increase in contractor expenses.
- Year-to-date operating expenses are $3,709,200, compared with the year-to-date budget of $3,846,986 and annual budget of $5,084,073. During the same period in the prior year, year-to-date operating expenses were $3,342,483.
- The favorable operating expenses budget variance can be explained primarily by conference and personnel expenses coming in below the year-to-date budget, partially offset by EU tax compliance expenses, which were not budgeted for 2026.
- After accounting for non-operating activity, the Organization recognized net income of $113,250 for the month of September 2026 and year-to-date net income of $901,276.
